CELEBRATING
CONSTRUCTION

2010

Featuring the Built in Quality and Constructing Excellence Awards

BACKGROUND

Celebrating Construction 2010 is a showcase and awards ceremony that provides recognition of the professionalism, excellence and innovation that lies at the heart of the West Midlands' construction community. The awards aim to represent the broadest possible spectrum of achievements. This event is well established as the "Oscars" of the industry in the region, but continues to evolve, reflecting the dynamic nature of the industry.

Celebrating Construction is co-hosted by Birmingham City Council's Building Consultancy service, the Chartered Institute of Building's (CIOB) West Midlands branch and the West Midlands Centre for Constructing Excellence (WMCCE).

The 2010 event will incorporate Building Consultancy's twelfth annual **Built in Quality Awards**, which will be presented by The Lord Mayor of Birmingham, Councillor Michael Wilkes. The awards promote and reward excellent work in construction, and winners are chosen from projects nominated by building consultancy surveyors across the region.

For the second year the WM7, a Local Authority Building Control partnership between Birmingham City Council, Coventry City Council, Dudley Metropolitan Borough Council, Sandwell Metropolitan Borough Council, Solihull Metropolitan Borough Council, Walsall Metropolitan Borough Council, and Wolverhampton Metropolitan Borough Council, have joined forces to profile their work across the West Midlands region.

Celebrating Construction 2010 will once again play host to WMCCE's **Constructing Excellence Awards**. These awards are open to both public and private sector organisations based in the West Midlands and whose business is construction-related.

The WMCCE Constructing Excellence Awards will be made in the five categories of Leadership in People Development, Integration and Collaborative Working, Health and Safety, Sustainability, and Innovation. In addition, for the first time, there will be a Project of the Year Award. This will be presented to the project team that has shown exemplary technical achievement, team working, innovation, and application of best practice whilst delivering a project to time and budget.

THE PARTNERS

Local Authority Building Consultancy in Birmingham and its six partners within the WM7, provide a dynamic building control service for all types of construction projects. Working in partnership with key industry professionals both regionally and nationally, they deal with over 20,000 building applications annually. The philosophy is to be an active member of the design and construction process, to enable rather than enforce, offering creative solutions to regulatory issues thus adding value to the building project.

With over 42,000 members the CIOB is the international voice of the building professional, representing an unequalled body of knowledge concerning the management of the total building process. CIOB members are skilled managers and professionals with a common commitment to achieving and maintaining the highest possible standards. Chartered Member status, represented by the designations MCIOB and FCIOB, is recognised internationally as the mark of a true professional in the construction industry. With its increasing international membership and growing profile in the UK, the CIOB is making a hugely influential contribution to one of the world's most important industries.

The West Midlands Centre for Constructing Excellence (WMCCE) was established to drive best practice in the construction and building technologies sector in the region, encouraging enhanced productivity, promoting the Climate Change Sustainability agenda, driving the skills agenda, and the exchange of knowledge. The Centre supports six Constructing Excellence Clubs, delivers a Demonstration Programme and provides knowledge through events, newsletters and podcasts. It is funded mainly by Advantage West Midlands, the European Development Fund and the Learning and Skills Council and is managed by the University of Wolverhampton.

ADVERTISING AND SPONSORSHIP OPPORTUNITIES

There are a number of advertising and sponsorship packages available to support Celebrating Construction 2010. If you would like more information, please contact **Victor Tsemo** on **0121 688 4050** or at **t.victor@wmcce.org**
