## About Glenigan

Glenigan combines comprehensive data gathering and exhaustive research with detailed statistical modelling and expert analysis, to deliver a trusted insight into UK construction trends and activity.

Glenigan customers include construction companies, manufacturers and suppliers of materials used in construction projects, as well as specialist service providers including recruitment agencies, financial institutions, IT and telecoms companies.

Glenigan clients win more contracts and make confident strategic decisions by providing unrivalled UK construction project leads and market intelligence. Endorsed by The Chartered Institute of Building, you can be confident that Glenigan will deliver exceptional service, value and return on your investment.

## Glenigan will help you

- **Win more contracts** using comprehensive project details about planned and current construction schemes for an informed sales pitch and cost-effective, efficient marketing;
- **Reduce risk** and assess market prospects to identify new opportunities using extensive construction activity data, analysis and forecasting by 12 regions and 11 sectors;
- **Save time** using custom statistics generated in seconds to answer questions specific to your business and help you make confident strategic decisions;
- **Better understand key players** using in-depth company profiles; and
- **Save money.** Research is expensive and resource intensive. Use Glenigan so you can focus on winning new business.

## About WMCCE

The West Midlands Centre for Constructing Excellence (WMCCE) supports business improvement programmes to help to help companies increase productivity, improve business processes, implement innovative technologies, adopt best practice and train the workforce. It does this by promoting:

- The Constructing Excellence agenda (Latham and Egan), helping to bring about a culture change within the construction industry;
- The Climate Change Sustainability agenda, now considered to be almost inextricably linked to Constructing Excellence; and
- The Skills agenda, encouraging more people into the industry at all levels, helping them to find the right training.

All of this is facilitated by WMCCE's role as a "knowledge hub" within the construction industry, collecting information and disseminating it, and by communication with industry stakeholders including client organisations, consultants, contractors and suppliers, as well as the universities, colleges and professional bodies (institutions etc.).

For more information, go to please visit [www.wmcce.org](http://www.wmcce.org)
